**Press release**  
Costa Mesa, November 13, 2007

Armite in Peoples Republic of China

### **Armite expands distribution**

Armite Laboratories Inc. Costa Mesa, California, has signed a definitive agreement with Asia Standard Ltd. Hong Kong, for the distribution of its United States made Aerospace Anti-Seize Compounds and Specialty Lubricants throughout The Peoples Republic of China. The agreement finalized during Aviation Week's 2007 MRO Show held in Shanghai last month, includes all products for the airline and aerospace industry manufactured by Armite.

Asia Standard Ltd. headquartered in Hong Kong distributes aerospace lubricants and chemicals products as well as aircraft parts and components. Asia Standard has a large customer base through out the region including Hong Kong, Macao, Taiwan, Philippines and plans into expand into Vietnam.

**For over 80 years, Armite has been a leader in the development and manufacture of anti-seize compounds, rust inhibitors and lubricating products for the aerospace, airline, automotive and marine industries. Armite continues its expansion into the worldwide marketplace and welcomes its new business partner in Asia.**
